Letter of Recommendation

for
Preety Prangya Samal

To Whom It May Concern,

It is with great pleasure that we extend our strong recommendation for the candidate mentioned above, who successfully completed her tenure with Vanillakart. During her time with us, she consistently demonstrated strong technical expertise, professionalism, and a proactive approach toward learning and execution.

She has showcased commendable proficiency in **Android Hybrid App Development**, particularly in converting responsive websites into fully functional Android applications using Android Studio. Her understanding of hybrid architecture, WebView integration, API connectivity, performance optimization, and app deployment reflects solid hands-on experience and technical clarity.

In addition, she possesses strong capabilities in website development using both **WordPress** and the **MERN Stack (MongoDB, Express.js, React.js, and Node.js)**. She has contributed to building, managing, and optimizing client websites with a focus on responsive design, user experience enhancement, and scalable backend integration. Her ability to work across multiple technologies demonstrates versatility and adaptability in full-stack development environments.

Beyond her technical strengths, she is diligent, responsible, and solution-oriented. She approaches challenges with analytical thinking and consistently delivers quality results within timelines. Her collaborative attitude and commitment to continuous learning make her a valuable asset to any organization.

We highly recommend her for roles related to Android Hybrid App Development, Web Development (WordPress and MERN Stack), and related technical domains. We are confident that she will continue to excel and add significant value to any team she joins.

We wish her continued success in all her future endeavors.
